

SAFETY GUIDELINES

Airsoft Gas Safety

⚠ WARNING Point top of container away from face and body.

Container may explode if heated. Contents may catch fire.

Do not puncture. Do not smoke. Do not burn. Use only in well ventilated area.

Keep away from flames, such as pilot light, and any object that sparks.

Keep out of reach of children. Store away from heat.

⚠ CAUTION

To reduce chance of fire or explosion:

- Always check gas can and charging adapter valve seal. Do not use if gas can has any unusual dent or rust and/or seal is loose.
- Attach charging adapter away from flames or sparks or any other source that could ignite gas.
- Check for leaks in one or more of these ways: Apply soapy water to all connections. LOOK for bubbles, LISTEN for hiss of escaping gas, FEEL for extreme cold, and SMELL for rotten egg odor. If leaking is found, do not use.

⚠ CAUTION

Keep hands and face at a safe distance from the escaping gas. Escaping gas may be under pressure. Gas may explode if exposed to temperatures exceeding 122°F. Do not smoke, keep away from open fire and flames. The gas is flammable.
